

Flourishing Families Service - Young Persons Advisory Service

MVRP Pilot Programme

Exit Strategy Announcement

We announce that YPAS's Flourishing Families Service, which commenced as a 21-month pilot funded by the MVRP on 01/01/23 will be concluding. This service was designed to provide a "Whole Family Evidence Based Therapeutic Service," with the aim of working with 209 Liverpool families.

As of 30/09/2024, the service will conclude, and our exit strategy has been initiated. Consequently, to ensure those families waiting for a service receive a service, Flourishing Families will no longer be accepting referrals. This decision has been made with careful consideration, as we prioritise the ethical and timely provision available during the 6 months exit strategy and recognise that the demand outweighs our capacity.

The Flourishing Families service has emerged as a necessary and highly sought-after service for the families of our city. The team has successfully fulfilled its mission, and as a result, families have reaped positive outcomes.

YPAS will continue to actively seek funding to sustain this much-needed service throughout the duration of the 6-months exit strategy. We remain committed to tirelessly promoting our model and systemic thinking, advocating for the crucial investment that families need. Additionally, the MVRP has commissioned an independent evaluation, which will be disseminated upon completion.
